## Advisory Action Before the Filing of an Appeal Brief

Application No.	Applicant(s)
10/603,887	CAMPISI ET AL.
Examiner	Art Unit
Carlton V. Johnson	2136

The MAILING DATE of this communication appears on the cover sheet with the correspondence address
THE REPLY FILED <u>20 August 2007</u> FAILS TO PLACE THIS APPLICATION IN CONDITION FOR ALLOWANCE.
1. The reply was filed after a final rejection, but prior to or on the same day as filing a Notice of Appeal. To avoid abandonment of this application, applicant must timely file one of the following replies: (1) an amendment, affidavit, or other evidence, which places the application in condition for allowance; (2) a Notice of Appeal (with appeal fee) in compliance with 37 CFR 41.31; or (3) a Request for Continued Examination (RCE) in compliance with 37 CFR 1.114. The reply must be filed within one of the following time periods:
a) The period for reply expires 3 months from the mailing date of the final rejection.
b) The period for reply expires on: (1) the mailing date of this Advisory Action, or (2) the date set forth in the final rejection, whichever is later. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of the final rejection.  Examiner Note: If box 1 is checked, check either box (a) or (b). ONLY CHECK BOX (b) WHEN THE FIRST REPLY WAS FILED WITHIN TWO MONTHS OF THE FINAL REJECTION. See MPEP 706.07(f).
Extensions of time may be obtained under 37 CFR 1.136(a). The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).  NOTICE OF APPEAL
2. The Notice of Appeal was filed on A brief in compliance with 37 CFR 41.37 must be filed within two months of the date of filing the Notice of Appeal (37 CFR 41.37(a)), or any extension thereof (37 CFR 41.37(e)), to avoid dismissal of the appeal. Since a Notice of Appeal has been filed, any reply must be filed within the time period set forth in 37 CFR 41.37(a).
<u>AMENDMENTS</u>
3. 🔯 The proposed amendment(s) filed after a final rejection, but prior to the date of filing a brief, will <u>not</u> be entered because
(a) They raise new issues that would require further consideration and/or search (see NOTE below);
(b) They raise the issue of new matter (see NOTE below);
(c) They are not deemed to place the application in better form for appeal by materially reducing or simplifying the issues for appeal; and/or
appeal, and/or (d) ☐ They present additional claims without canceling a corresponding number of finally rejected claims.
NOTE: (See 37 CFR 1.116 and 41.33(a)).
4. The amendments are not in compliance with 37 CFR 1.121. See attached Notice of Non-Compliant Amendment (PTOL-324).
5. Applicant's reply has overcome the following rejection(s):
6. Newly proposed or amended claim(s) would be allowable if submitted in a separate, timely filed amendment canceling the
non-allowable claim(s).
7. For purposes of appeal, the proposed amendment(s): a) will not be entered, or b) will be entered and an explanation of how the new or amended claims would be rejected is provided below or appended.  The status of the claim(s) is (or will be) as follows:
Claim(s) allowed:
Claim(s) objected to:
Claim(s) rejected: 1-14,16-30 and 42-55. Claim(s) withdrawn from consideration:
AFFIDAVIT OR OTHER EVIDENCE
8. The affidavit or other evidence filed after a final action, but before or on the date of filing a Notice of Appeal will <u>not</u> be entered because applicant failed to provide a showing of good and sufficient reasons why the affidavit or other evidence is necessary and was not earlier presented. See 37 CFR 1.116(e).
9. The affidavit or other evidence filed after the date of filing a Notice of Appeal, but prior to the date of filing a brief, will <u>not</u> be entered because the affidavit or other evidence failed to overcome <u>all</u> rejections under appeal and/or appellant fails to provide a showing a good and sufficient reasons why it is necessary and was not earlier presented. See 37 CFR 41.33(d)(1).
10. ☐ The affidavit or other evidence is entered. An explanation of the status of the claims after entry is below or attached. REQUEST FOR RECONSIDERATION/OTHER
11. The request for reconsideration has been considered but does NOT place the application in condition for allowance because: <u>See Continuation Sheet.</u>
12. Note the attached Information Disclosure Statement(s). (PTO/SB/08) Paper No(s).
13. Other:

Continuation of 11. does NOT place the application in condition for allowance because:

The scope of claim 55 has been changed due to amendments to claim 55 and the set of new claims dependent on claim 55. Before the current set of amendments, claim 55 was rejected by the previous Office Action based on the current grounds of rejection.

The Doyle prior art discloses a smart card (authentication card) that has a processor, memory, information storage capability, which contains security related information (biometric information), encryption keys, and an attached (integrated) biometric sensor. The stored secret information (enrolled biometric information) is stored on the smart card. (see Doyle Figure 5; paragraph [0035], lines 1-7; paragraph [0036], lines 1-15: card includes means for authentication (comparison of biometric information), performed on smart card; paragraph [0035], lines 1-7: storage of biometric enrollment information). The authentication of a user is based on biometric security information on the smart card and is accomplished solely by the smart card.

The O'Gorman prior art discloses the capability for the enrollment of biometric information within the authentication system, namely the stand-alone authentication card. (see O'Gorman col. 1, lines 39-43; col. 2, lines 34-44; col. 5, lines 46-48: biometric information enrollment)

The Examiner has considered the applicant's remarks concerning a transaction authentication card that uses a biometric input and a wireless output, and power to the transaction authentication card may be accomplished through an internal battery. Biometric data used for user verification is stored on the card only and will not be transferred from the card. If authorized biometric data is authenticated, the card will transmit a wireless access code to a proximity reader or other type of transaction equipment. Applicant's arguments have thus been fully analyzed and considered but they are not persuasive.

After an additional analysis of the applicant's invention, remarks, and a search of the available prior art, it was determined that the current set of prior art consisting of Bashan (6,202,927), Doyle (20020095587), Elteto (7,111,324), Jachimowicz (5,734,154), O'Gorman (6,970,584), and Mosher (20030173408) discloses the applicant's invention.
